Professional Summary

Passionate and creative software developer with expertise in HTML, CSS, React, Node.js, Express.js, and MongoDB. Skilled in designing and developing responsive web applications with a focus on user experience. Committed to collaborative teamwork and leveraging cutting-edge technologies for efficient and scalable solutions. Certified Full Stack Web Developer, driven by a motivated attitude and a versatile skill set.

Education

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2023	Bachelor of Technology	Omkarananda Institute of Management & Technology, Rishikesh	70.35%
2023	Intermediate (Class XII)	Rashtriya Inter College Aurangabad-Anneki , Haridwar	64.4%
2015	Matriculation (Class X)	Arya Inter College Bahadrabad,Haridwar	78.2%

Internship and Certifications

Newton School | Newton School Coding Bootcamp   July 2023 - July 2023
- **Full stack web development** along with problem solving.
- **Tech Stack learned :-** ReactJs, HTML, CSS, JS,Expressjs,MongoDB,Data Structure,Material-UI,Firebase,Git,Bootstrap,Nodejs
- I have worked on various projects, including Votely (created using React and JavaScript), Math Partner, and FutureFuse (JavaScript projects). I have also completed projects like the University Website (built with HTML and CSS) and Myportfolio (a personal portfolio project). These experiences have strengthened my skills in web development and allowed me to create functional and visually appealing applications.

National Institute of Electronics and information Technology(NIELIT) | Student   May 2018 - August 2018
- CCC(Course on Computer Concepts)
- I have successfully completed the CCC (Course on Computer Concepts) certification, a government-issued certificate that encompasses comprehensive knowledge of computer working concepts, basic computer programming, and hardware understanding. This prestigious certification has equipped me with a solid foundation in computer science, enabling me to grasp fundamental programming principles and gain insights into the intricacies of computer hardware.

ACTC One Training Platform | Student   May 2015 - July 2015
- obtained Office Automation 2007 (BASIC) certification, mastering Microsoft Word, Excel, and PowerPoint. Proficient in creating professional documents, managing data effectively, and delivering impactful presentations using these essential office productivity tools.

Projects

Math Partner | Innovative Solo Project *(link)*   July 2023 - July 2023
Features:
- The objective is to build a user-friendly Complex Mathematics Question Solving App using HTML, CSS, and JavaScript that integrates with the Newton API.
- The app will have features such as a problem input field, category buttons, search button, history button, delete button, and save functionality.
Tech Stack:
- HTML,CSS,JavaScript

The Futurefuse | Team Atomic Warriors (Group Project) *(link)*   July 2023 - July 2023
Features:
- Tech blog website focused on providing the latest news, trends, and insights in technology.
- User-friendly interface with easy navigation for discovering content on AI, cybersecurity, blockchain, and more.
- Fully responsive design for mobile accessibility.
Tech Stack:
- HTMl,CSS,JavaScript

Votely | Innovative Solo Project   July 2023 - July 2023

Features:
- Open-source community platform Votely: Inspired by Reddit, powered by React and Material-UI, providing secure and engaging user experience.
- Votely offers secure signup/login, JSON integration, and content filtering. With Material-UI for a sleek UI, users can browse posts, filter by category, and receive offline notifications

Tech Stack:
- ReactJs,CSS,Firebase,Material-UI

Creative Portfolio | Innovative Solo Project *(link)*   July 2023 - July 2023

Features:
- My resume profile portfolio project is a website that showcases my skills and experiences in a professional and visually appealing manner.
- Created using HTML and CSS, it features a responsive layout that adapts to different screen sizes and a clear navigation system that allows visitors to easily access different sections of the website.

Tech Stack:
- HTML, CSS

University Website | Innovative Solo Project *(link)*   July 2023 - July 2023

Features:
- My project is a responsive university website created using HTML ,CSS and Bootstrap .
- The website provides important information about the university, including academic programs and admission requirements, and features a clean and modern design with clear navigation and effective use of white space.

Tech Stack:
- HTML,CSS,Bootstrap

Skills

Computer languages	Java, CSS, HTML, Javascript
Software Packages	Mongo DB, NodeJS, Express JS, Bootstrap, React
Additional Courses Taken	Data Structure
Soft Skills	Communication Skills, Creativity, Leadership, Public speaking, Critical Thinking, Decision-making, Presentation Skills
Others	Spreadsheets, Microsoft Office

Co-Curricular Activities

- Conducted Cyber Security Workshop.
- Playing Chess
- Watching Movies
- Cooking
- Learning New Things in Cyber Security
- Solved 260+ DSA & Frontend Question on Newton portal.
- Solved 162+ DSA & Frontend Live Contest Questions .
- "CodeCrush by CodeRush at Newton Achieving a commendable Global rank of 178 out of 1928,
